Hazardous Weather

Dangerous Heat Today

Take Breaks | Stay Cool/Hydrated | Look before You Lock!

Weather Forecast Office
Corpus Christi, TX
Issued Jul 10, 2020 4:04 AM CDT

NWSCorpus

weather.gov/crp

The combination of hot temperatures and high humidity will produce dangerous heat conditions this afternoon across South Texas. Afternoon heat index values of 110 to 114 can be expected. The afternoon heat index will range from 105 to 109 across the islands. Residents with outdoor activities planned are urged to drink plenty of water, wear light weight and light colored clothing and take frequent breaks from the heat.

Heat Advisory Today and Saturday

Weather Forecast Office
Fort Worth, TX
Issued Jul 10, 2020 4:25 AM CDT

NWSFort Worth

weather.gov/fortworth

Hot and humid conditions will continue today and into the weekend with a Heat Advisory in effect for most of the area. Heat index values will climb into the 105 to 110 degree range with actual air temperatures in the upper 90s to near 100 degrees. Be sure to practice your heat safety precautions!

Hazardous Weather

Hot temperatures and high humidity will result in dangerous heat index values. Heat index will climb between 105 to 110 degrees in many areas this afternoon and early evening. A Heat Advisory is in effect for southeast Texas from noon through 7 PM CDT.

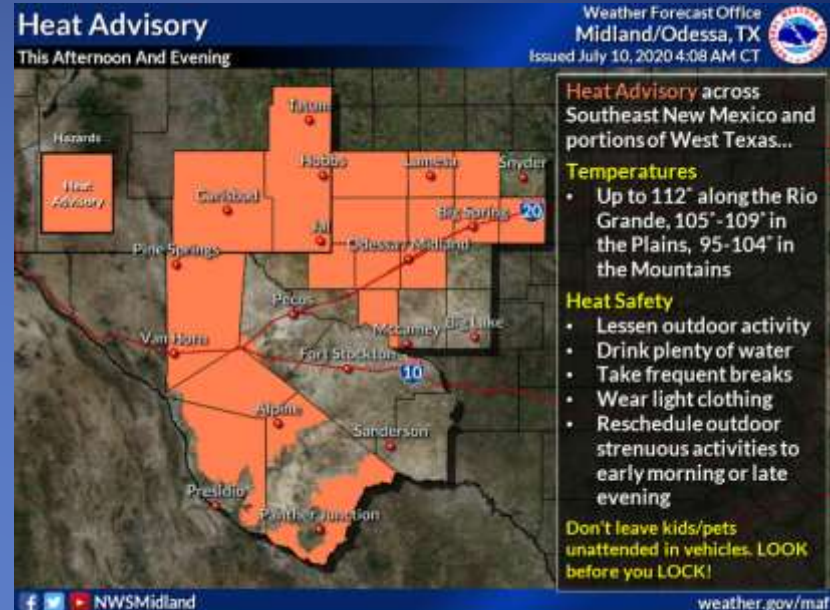

HEAT ADVISORY IN EFFECT FROM NOON TODAY TO 7 PM CDT THIS EVENING. Heat index values from 106 to 110 are expected. Through portions of central, south central, southwest and west central Louisiana and southeast Texas from noon today to 7 PM CDT this evening. Hot temperatures and high humidity may cause heat illnesses to occur. **PRECAUTIONARY/PREPAREDNESS ACTIONS...** Drink plenty of fluids, stay in an air-conditioned room, stay out of the sun, and check up on relatives and neighbors. Young children and pets should never be left unattended in vehicles under any circumstances.

Hazardous Weather

It will be another hot day tomorrow with most locations reaching at least 105 degrees under mostly sunny skies. A heat advisory is in effect from 11 AM to 9 PM.

HEAT ADVISORY IN EFFECT FROM NOON TODAY TO 7 PM CDT THIS EVENING. Heat index values from 106 to 110 are expected. Through portions of central, south central, southwest and west central Louisiana and southeast Texas from noon today to 7 PM CDT this evening. Hot temperatures and high humidity may cause heat illnesses to occur.

Hazardous Weather

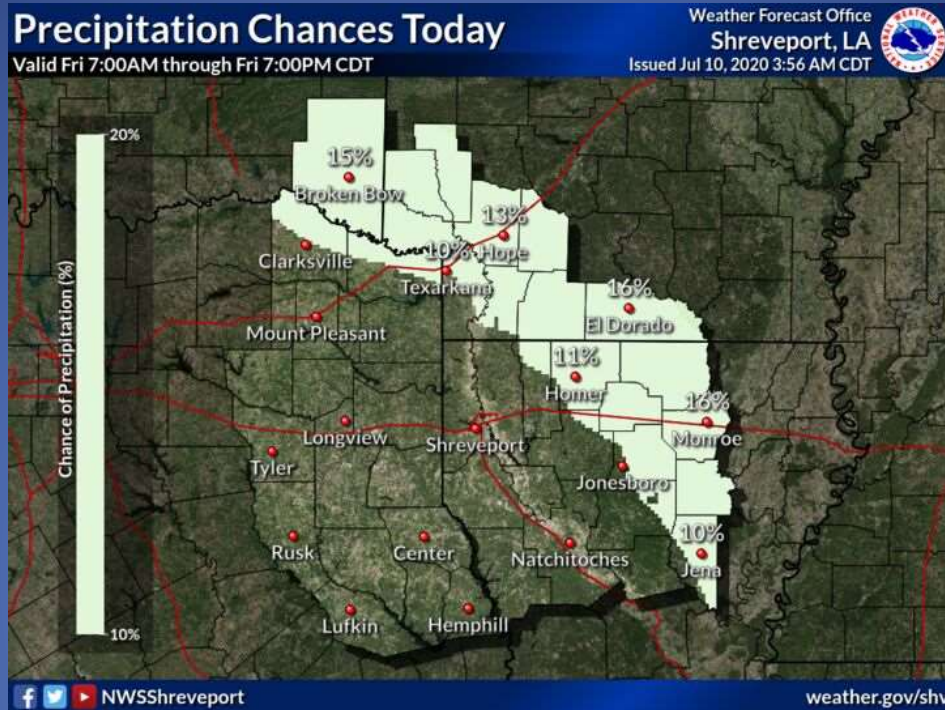

HEAT ADVISORY IN EFFECT FROM NOON TODAY TO 7 PM CDT THIS EVENING. Heat index values up to 110 expected in the Rio Grande Plains and Coastal Plains of South Central Texas from Noon today to 7 PM CDT this evening. Hot temperatures and high humidity may cause heat illnesses to occur. Remember to drink plenty of fluids, stay in an air-conditioned room, stay out of the sun, and check up on relatives and neighbors. Young children and pets should never be left unattended in vehicles under any circumstances.

A Heat Advisory is in effect from 11 AM this morning through 7 PM Saturday for portions of Southeast Oklahoma, Southwest Arkansas, East Texas, and Northern and Central Louisiana. Hot temperatures combined with high humidity will result in Heat Index values up to 110 degrees over the next couple of days.

Hazardous Weather

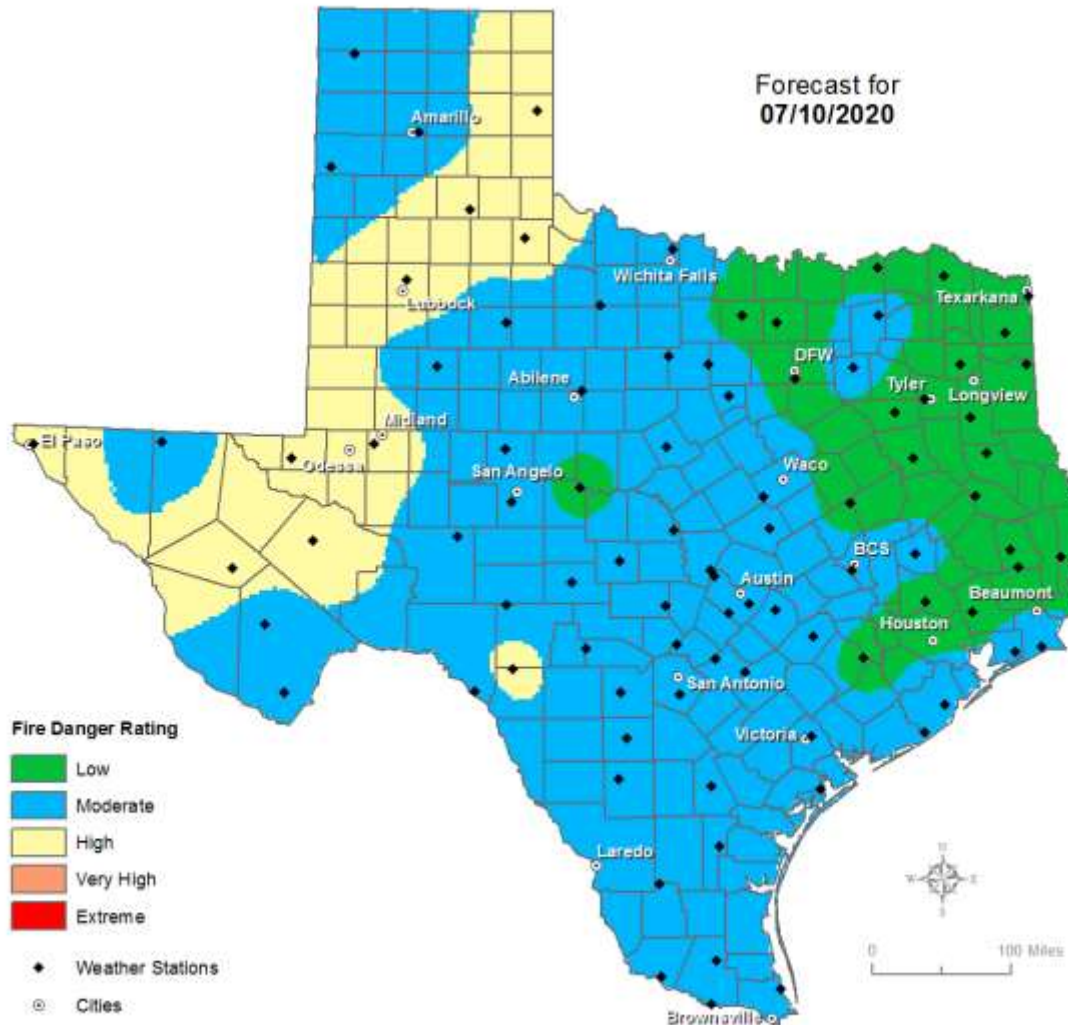

A slight chance for showers and thunderstorms this afternoon over portions of Southeast Oklahoma, Southwest Arkansas, and Northeast Louisiana.
